WORK EXPERIENCE

North coders – Remote   Oct 2023 – Jan 2024

Trainee Software Developer

Intensive, hands-on 13 week full-stack development bootcamp with 500+ hours of coding and project development

- Sharpened my skills through daily algorithm challenges and pair programming sessions.
- Improved code quality and efficiency by practicing test-driven development and regular code reviews.
- Hands-on experience with Agile methodologies, involving regular sprint planning sessions, daily stand-ups, and iterative project adjustments.
- Adapted to Agile's fast-paced and flexible approach, emphasizing continuous improvement and responsiveness to change

Self Employed - *Cambridge*   Jan 2020 - Now

Logistics and Traffic Manager

On-site logistics in construction, organizing the receipt, storage, and distribution of materials. Ensured materials were efficiently allocated to their designated areas, supporting timely project progression and maintaining site organization.

- Utilized analytical skills to develop and execute traffic management and risk assessment plans, achieving a 0 incident record and enhancing site safety and efficiency.
- Ensured 100% compliance with safety standards through thorough record-keeping, showcasing strong organizational skills and a commitment to quality.

MasterDec- *London*   Jan 2018 – Sep 2019

Assistant Site Manager

Led comprehensive project management in a construction setting, focusing on operational efficiency, stakeholder engagement, and financial oversight, demonstrating key skills transferable to software development environments.

- Managed employee performance and attendance, ensuring 100% payroll accuracy and effective personnel management, demonstrating strong organizational and leadership skills.
- Executed detailed project inspections and prepared comprehensive reports, ensuring timely billing and showcasing thorough attention to detail and quality assurance.
- Developed precise project estimates, offering clients accurate cost analysis and demonstrating analytical prowess and a commitment to clear communication.
- Coordinated project operations and maintained stakeholder relations, ensuring projects were delivered on schedule through effective communication and project management.
- Oversaw project financials, employing data-driven strategies to enhance decision-making and profitability, showcasing financial acumen and strategic planning skills.

EDUCATION

- **VIA University Denmark** – *IT Engineering*

  Studied HTML, CSS, SQL, C and JAVA for the time I was in the program.

- **Technical University –** Navigation

  Completed three levels of advanced mathematics in the first year of studies before pursuing an opportunity to relocate to Denmark.

CERTIFICATIONS

- **level 2 NCFE certification**

  Understanding Programming.

- **Certificate of Completion**

  Northcoders full-stack programming bootcamp
